The Royal Rooms, near C. P. R. station,
main street, Vulcan. Rates 75c. and \$1.

We have some good houses splendidly
located for sale. Flood, Whitcher & Elves.

There is to be a dance at the Odd
Fellows' hall on the night of Thanksgiv-
ing Day, Monday November 12th.
Music by Bird's Red Birds.

Schools in Vulcan closed on Wed-
nesday and will not re-open until
Tuesday, the day following Thanksgiv-
ing. In the interval members of
the staff will attend the convention
of teachers.

Vulcan continues to send appen-
dicitis patients to city hospitals, and
this time it is to Lethbridge. The pa-
tient is Master Russell Collier, who
has successfully undergone an opera-
tion and is on the way to recovery.

The purchase of a big strip of prop-
erty on the west side has been made
by Mr. Abe Schenck, and a new
house of fair dimensions is being
erected thereon for him. This property
is where Chautauqua usually pitches
its tent.

There was a near runaway in the
railway yards this week. This gives
rise to the suggestion from those con-
cerned that a stop should be made to
the turning loose of paper and other
material in the vicinity of cars where
horses are in use in the hauling of
freight or grain, and The Advocate
gives place to the expression of the
idea.

Tax notices recently sent to Vulcan
ratepayers give them information as
to the amount of the municipal hospi-
tal tax. In this connection it is well
to remember that where the tax does
not reach \$6.00, the difference be-
tween the amount on the notices and
six dollars must be paid to secure the
hospital benefits. In other words, the
minimum hospital tax is \$6.00.

LOCAL NEWS ITEMS

Mr. K. R. McLean, R.O., of Ander-
son & McLean, sight specialist, 208
Eight Ave. W., Calgary, wishes to
announce his semi-monthly visits to
the King drug store, Vulcan, on Sat-
urday, November 10th, and Saturday
November 24th.

Mr. George Munro, secretary-man-
ager of the Canadian Legion, with a
committee of the executive, has been
in Calgary and elsewhere this week
on the business of making calcula-
tions on the furnishings and other
house equipment for the new memori-
al hall.

Members of the Rest Room commit-
tee desire to convey their sincere
thanks to Mr. C. R. Robson, for so
kindly showing the picture "The Fift-
y-Fifty Girl" in aid of the rest
room, and from which there was re-
ceived the sum of \$80.75. They also
desire to thank the people of Vulcan
and district for the splendid response
they made towards making the
scheme a success.

With the amalgamation of the
Standard Bank with the Bank of
Commerce, completed during the
week, there has been a considerable
transfer in employees. Following
the plan to have a Commerce man in
every former Standard branch, the
Commerce manager and High River
and Standard manager at Lomond,
with staff members from each place,
met at Vulcan and made an exchange.

The interest in Vulcan in the presi-
dential election in the United States
was evidenced by the assembly of
groups at all the radios in public
places and parties in homes all list-
ening intently as the polling came in.
Hoover seemed to be in favor here in
about the same proportion as he was
over there. Some bets were made
here, but there was not an immense
amount changed.

For Canada's sake join the Cana-
dian Legion. The following from
The Melfort Journal might serve to
clear up any misconception as to the
aims and objects of the Canadian
Legion: "We want Canada saved for
British peoples. We want British
ideals, customs and commerce to
flourish in Canada, and not be crowd-
ed out by foreign enterprises and
penetration. That's what we fought
for, that's what our comrades laid
down their lives for—Canada. We
want that irrespective of creed or
party. The Legion is no place for
personalities. We stand for unity,
comradeship, hatred of war, war
against hatred, peace. We are sol-
emnly pledged to perpetuate the mem-
ory and glorious deeds of our fallen
comrades. The Legion exists to pro-
tect the dependents of those who died
and all those who now suffer because
of their sacrifice." Your membership
in the Canadian Legion is sought for
these and other reasons that must be
more or less obvious to you. There
is a live organization in Vulcan. Sup-
port it.

LOCAL NEWS ITEMS

Under Board of Trade auspices
there will be a public meeting, at the
Odd Fellows' Hall, in Vulcan, on
Tuesday night, November 20th. The
feature of the meeting will be an ad-
dress by Mr. E. E. Eisenhauer, an of-
ficial of the Wheat Pool, who will
discuss the operations and methods
of this great organization.

The regular meeting of Ferrosdale
Chapter, Order of Eastern Star, will
be held on Tuesday evening, Novem-
ber 13th, and will commence at eight
o'clock. Business general, and the
chapter will be visited by Mrs. Mary
E. Savage, of Calgary, Worthy Grand
Matron of Grand Chapter of Alberta
Visiting members welcome.

Playing the test selections and so-
los rendered in the competition held
last summer at the Calgary exhibi-
tion, Vulcan Citizens' Band will ap-
pear in concert at the theatre on
Thursday, November 15th. The band
is now perhaps in better shape than
when the provincial championship
was won, and a high class program
will surely be presented.

This week there was a demand
from railway and government official
for photos of auto truck hauling of
grain to elevators. Vulcan, with its
line of nine elevators, was selected as
the point at which the pictures were
to be made, but these are not avail-
able as here, like everywhere else the
elevators are filled to capacity, and
there is very little truck hauling.

Robert Raine is the name of the
young man who has this week taken
charge of the new barber shop in the
Carson block, and in this issue an-
nounces the opening of the tonsorial
parlor which is now to be known as
the Vulcan Barber Shop. He makes
the bid for patronage on the principle
if you deliver the goods you get the
business. He starts with fine quar-
ter and first class equipment.

Secretary-manager now designates
the official position which Mr. George
Munro holds in connection with the
local branch of the Canadian Legion.
The change was recently made by
the executive, and there is added
some duties, and all calculated to fa-
cilitate the conduct of the fast in-
creasing business of this organiza-
tion. This official has been efficient
in his former capacity and now he is
made ruler over many things.

Rev. J. N. Brunton will conduct a
service in commemoration of Armis-
tice Day at the United Church Sun-
day morning at 11 o'clock sharp,
when a special armistice programme
will be carried out. In the evening,
Mr. Brunton will speak on the
"Mountain Peaks," or "Lessons from
the Alpine Climbers." You are in-
vited to attend these services. Come
and bring your friends with you. The
senior choir will render the music at
both services.

The Advocate this week received a
written request to publish a number
of newspaper clippings which accom-
panied the letter. The letter was not
signed, and for this reason was not
considered. The articles were in re-
ference to the Klu Klux Klan, and of
a condemnatory character. When the
high mogul of the mystery order was
publicly before the people of Vulcan
was the time to start an argument
which the publications of these items
would perhaps precipitate. The Advocate
is not intended as a medium of
contention.

The new combination ambulance
and funeral car, recently purchased
by Mr. A. W. Kelly, rendered its first
service in Vulcan this week. It is
of latest design and equipment, and
in outward appearance little different
from any other first class funeral car,
and thus eliminates the pall tray-
pings which have perhaps too long
been the funeral vogue. Mr. Kelly
maintains a service as funeral direc-
tor that is not to any extent exceed-
ed anywhere.

"Buster" Johnston, son of Mr. San-
Johnston, is the victim of the one
gun accident thus far reported in
this season. Keeping a small rifle
handy on the harvesting rig, the
young man reached for the instru-
ment on the approach of a rabbit. In
the manipulation in the intent to
shoot the rifle was accidentally dis-
charged and the bullet injured the
fingers and pierced the thick portion
of the young man's hand. The wound
is sufficient to create some
suffering, but the injury will not de-
stroy the hand, and that is better
than it might have been.

can Women's Institute was held on
November 2nd. Arrangements were
made to serve supper at the Cana-
dian Legion dance. Ways and means
for raising money were discussed.
Names were drawn for Christmas pic-
nics were completed for Armistice
tea and sale of home cooking on No-
vember 10th. The program included
community singing. Tea was dis-
pensed with as several of the ladies
were going to an institute function
at Blackie. The flower demonstra-
tion by Mrs. Campbell was postponed
until a future date.

LOCAL NEWS ITEMS

The making of the apartments at
the Royal has been delayed on ac-
count of a hold-up in delivery of ma-
terial, but this is now to hand and
operations are now under way.

The Ladies Aid of the United
Church are holding their annual ba-
zaar and food sale, in the school
room of the church on Saturday af-
ternoon, November 24th, from three
to six. Afternoon tea will be served.

St. Aldhelm's Church services on
Sunday, November 11th. Being Armis-
tice Day, the morning service will
begin at 10:45, in order to observe
the two minutes silence. Sunday
school at 10 a.m., evensong at 7:30 p.m.
Service at Union Jack school at
3 p.m.

The lady superintendent and a com-
mittee of the board of management
of the new municipal hospital at Vul-
can have been authorized to make an
inspection and purchase of furniture
and equipment for the hospital, and
it is expected that this matter will
have immediate attention. This in-
dicates that the building is nearing
completion, and that when same is
accomplished all other things will be
in readiness.

children took train from Vulcan last
week, the purpose being to take up
residence in the East. The family
has been resident in Vulcan for some
years, and the removal will break sev-
eral associations that have been es-
tablished in the interest manifested
by them in the community activities.
They go to a new home in the east
with the best wishes of friends in the
west.

This fine undertaking of the Legion
should have the support of everybody
at least to the extent of assisting to
secure accurate and complete infor-
mation as desired and here indicated.

Members of the Vulcan chapter of
the Eastern Star were the guests on
Monday night of the Champion chap-
ter, at Champion, at a regular meet-
ing of the neighbor town organiza-
tion. The reception and hospitality
extended made an exceptionally pleas-
ing event of the visit of the guests.
In the Vulcan party were Mr. and
Mrs. Fred Simington, Mrs. Kettleton,
Mrs. McMann, Mr. and Mrs. Ed. Ar-
meyer, Mrs. Dawson, Mrs. Roebuck
and Mr. and Mrs. J. B. Ross. The
inter-town visitations of the lodges
are certainly pleasing events and
create a neighborliness that is good.

The reputation of Vulcan as a box-
ing centre evidently is being extend-
ed, as the request for engagements
continue to be received by the local
promoters. The list of the mitt ar-
tists who desire an appearance at
Vulcan includes the names of men of
talent in all the provinces from
Manitoba to the coast. No place of
sufficient size for the shows is avail-
able during the winter, and the sport
is off for the time, but when spring
time comes again there will likely be
opportunity for all the boys of class.
The last word from Frank Jackson
whom the fans now claim as a Vul-
can boy, is that he is training hard
for his coming bout at Port Arthur.
He says he will be back to Vulcan
when the winter is past.

Announcement has been received
that Mr. F. E. Kilbert, superintendent
of Manitoba branches of The Cana-
dian Bank of Commerce, will shortly
retire on pension. Mr. Kilbert en-
tered the service of the Bank of
Hamilton in 1883, and among his va-
rious appointments he was manager
of the Bank of Hamilton at Toronto
and Winnipeg. In 1916 he was giv-
en the rank of western superintendent
of the Bank of Hamilton branch
es. After the amalgamation in Janu-
ary 1924, he was appointed superin-
tendent of Manitoba and Saskatche-
wan branches of The Canadian Bank
of Commerce, and shortly after that
superintendent of Manitoba district
of The Canadian Bank of Commerce.
The matter is of more than ordinary
local interest in view of the fact that
the Bank of Hamilton was the first
bank established in Vulcan, and that
Mr. Wright, local manager of The
Canadian Bank of Commerce, worked
under Mr. Kilbert in Winnipeg
branch in 1904.

LOCAL NEWS ITEMS

Bonds were received in Vulcan on
Thursday by the local purchasers of
Calgary Power Company stock. Quite
a considerable amount of this stock
was purchased in town and district.

Mrs. Steve Slyzen motored to Cal-
gary this week, in preparation to tak-
ing the long journey to the home of
her youth in Germany. It is many
years since Mrs. Slyzen left her na-
tive land and the trip back will now
surely be very interesting.

The new motor delivery truck, re-
cently purchased from the Pyramid
Motors by Messrs. McLaggan & Man-
son, is now in operation in town, and
its several features commands atten-
tion. It is particularly well lettered
with the firm name.

The program at the Vulcan thea-
tre on Monday, to be given for the
benefit of the School Fair fund for
prizes, will be of special interest and
excellence, as indicated by the detail
in a current advt. and on a dodger
that is being circulated. Spend a
half dollar and enjoy a splendid pro-
gram and support a real community
enterprise.

Services at the Church of Christ
will be held as usual on November 11.
Mr. J. H. Deans will supply for us in
the morning at 10:30. Bible school
at 11:30; look in upon this branch of
our work. In the evening at 7:15
will be the first devotional meeting
of the Christian Endeavor society;
the pastor will lead and we urge all
the members to attend. At 8:00 the
regular evangelistic services, with
good music and helpful sermon. Wel-
come is the big word.—O. P. Burris,
minister.

The regular meeting of the Golden
Rule Women's Institute was held at
the home of Mrs. Frank Galloway on
Thursday, November 1st. The prin-
cipal business was the arranging for
noon, Nov. 9th. Mrs. D. H. Galbraith
gave a paper on the history of the
Union Jack, also a short resume of
the important acts passed at the 1928
provincial legislature. The next
meeting will be at Mrs. W. Isaacson's
on the 15th November.

in reply to a recent challenge from
the club at Arrowwood for a series
of games, some of which to be play-
ed this fall, answer that the Vulcan
club has been disbanded for this sea-
son, but when reorganized in the
spring they will be prepared and
pleased to participate in any number
of games or series. The Vulcan girls
give support to the suggestion that
a trophy would be acceptable from
any person in either town that might
be disposed to donate. All this would
indicate that next season there might
be something in basketball to antici-
pate.

Neighbors and other friends of Mr.
and Mrs. Roy Lilly, recently married,
assembled on Monday night at the
home of Mr. and Mrs. Elton Lilly to
convey to the bride and groom their
very best wishes. The expression
was in the form of a miscellaneous
shower, and the guests of honor were
made the recipients of many valuable
and useful gifts. Dancing was one
of the features of a program which
provided the party with the merrim-
ent in keeping with the joyous oc-
casion. Refreshments were served.
The sentiments expressed in this
event are endorsed by many other
friends of the happy couple, who have
been popular in their respective com-
munities and the hope is that they
may realize to the full the success
and happiness that has been wished
to them. Mr. and Mrs. Lilly will re-
side in the Vulcan district.

The congregational banquet in con-
nection with the United Church, held
on November 1st, was the event of
the week. Just less than two hun-
dred members and adherents of the
church assembled in festival and to
talk church business. When all had
feasted, vocal and instrumental se-
lections were rendered by Miss Walk-
er, Mr. Ottewill and Mr. Sales. Mr.
A. L. Burrows, who was chairman,
presented a statement of the finan-
cial position of the congregation.
Rev. Mr. Brunton, pastor of the
church, in a pleasing speech preced-
ed the principal speaker, Rev. Dr.
Kerby of Calgary. Mr. Kerby for
more than an hour commanded the at-
tention of the large assembly, and
with logic and eloquence discussed
the relationship of the church to
world changes and development, a
subject which gave opportunity for
many timely statements by the
speaker, who speaks with the author-
ity of the chief officer of the confer-
ence and the proof of long experience.
His appeal was that Vulcan congrega-
tion should make its quota contribu-
tion to the enterprises of the church
as well as take care of the demand
locally. The response was that in a
few minutes there were subscriptions
made that aggregated an even fifteen
hundred dollars, and the campaign
thus started is expected to greatly
increase the amount. This event was
in every respect a very fine success.

Let this Bank Protect YOU

YOU know, of course, that banks take every possible precaution to protect their cash and securities.

This Bank has built the best vaults that money, science and engineering skill can provide. In these vaults we have placed Safety Deposit Boxes which may be rented at very low rates.

What safer or more private place could you possibly have in which to place your deeds, bonds and other valuables than these vaults, specially built by the Bank for its own protection.

VULCAN, ALBERTA

MAY BE TO SAVE 50 YEARS

The average time it takes a fast railroad train to pass a crossing is seven seconds, according to a speaker before the National Association of Railroad and Utilities Commissioners. Yet, according to statistics presented at the same session, more than 7,000 automobilists were killed at grade crossings last year. They couldn't wait seven seconds. They will wait where they are till Gabriel blows his trumpet, for there is no way of beating that. It is very difficult for the driver of a fast-moving automobile to gauge the relative speeds of his car and a swift train converging on the same point from different directions. Therefore there is only one safe rule to follow: Let the train go by. What are seven seconds in the life of a motorist? To lose them may be to save 50 years!

UNSPANKED YOUTH

A queer situation has arisen in the Acme High School. The 15 year old Portias and Daniels of Grades X and XI have, out of the richness of their experience, decided that the examination papers set by their teacher were too hard. So they have just walked out of the school into the great free out doors leaving the teacher, who has only twenty-five years experience back of him, to shiver in the cold blast of their disapproval. The parents apparently are back of the students—thereby laying up for themselves quite a number of similar situations and future crisis. The School Board has put in an S.O.S. for Inspector Smith, who does not seem to be taking the situation very seriously. Without knowing all the steps leading up to this apparently ridiculous situation, it is going to be pretty hard for the parents concerned to prove to the outside world that they are doing wisely in countenancing the strike. The normal reaction to the news that a whole adult community is bowing before the whims of fifteen year olds, is a yearning for the vigorous use of the old fashioned strap. Under any circumstances it is extremely bad for discipline, to permit children to figure so prominently. And whatever other angles there may be to the situation—whatever mistakes this Principal may possibly have committed, surely it would be in the more permanent interest of the school that teacher, school board and parents should meet and adjust matters on an adult basis, rather than that Grades X and XI deliver ultimatums. Or is the supply of adults giving out in Acme.

Ten times as many people read headlines as read the detailed news—and fifty times as many as will read a long story.—William Hearst.

IS IT SHOOTING

An Eastern man who has spent the shooting season in the West, has returned to the placid East and is recuperating from the sporting life of Alberta. He is still somewhat irritable and has written a word of protest on our so called "shooting season." He writes: "Why the swank? Why do Western men call the thing they do in the fall 'shooting.' To be sure they take a gun along, but their activities when boiled down, might better be called stomach crawling or snaking or pit sitting or stalling walking, depending on what they are trying to shoot. Occasionally through the long vigils or on the weary tramp a shot is fired. But all autumn the West is alive with fat men and lean men crawling over the surface of the earth on their stomachs, or sitting patiently for hours in cold holes, or tramping viciously up and down gullies reviling their dogs. When the days work is all totted up, they produce with great pride from some inner receptacle of their being (like a kangaroo) one small bird that will make one good hearty mouthful. It is time that the Western men quit kidding themselves and began to call a spade a spade or something similar at any rate."

THE WAR GUILT

It is felt by many old countrymen that sentimentality is getting the better of reasonable judgment in the attitude of both English and Belgians toward the late war and Germany's part in it. Much propaganda is afoot to show that "Germany was dragged into the war against her will by Poincare, and that Germany's wrong to Belgium was a myth." Everybody, strangely enough, seems ready to pass a sponge over the blackest records in this respect. One observer comments on the fine delicacy with which the British Foreign Secretary wished to protect the Germans from being reminded by film of what they did to Nurse Cavell. Sir Austin Chamberlain in his nobility of soul could not look on this offending picture—it might hurt someone's feelings. Then comes the scandal of Louvain—The Rector of the University of Louvain, has ordered to be expunged from the new library at Louvain, the inscription ordered by Cardinal Mercier, that served to remind the world that the old Library was destroyed by the "Teutonic fury." Naturally the outraged citizens of Louvain who saw their treasures destroyed not as an act of war, but as an act of savage wantonness, are indignant.

It is because too many false legends are already growing up about the responsibility of the war, that a new work of research "The War Guilt" should be warmly welcomed by truth seekers. It is a necessary book, written with impartiality and fairness. Mr. Wilson, the author has tried to look at every viewpoint. And while the book is a quiet sober statement of fact yet it unquestionably lays the burden of war guilt upon the shoulders of Austria and Germany.

I just wish I had more clothes to wash now, like I had when my twenty children was growing up. Bendin over the wash tub will cure the worst case of lumbago anybody ever almost had.—Aunt Judy.

BEWARE OF THE CANVASSERS

At this time of the year when crop returns are flowing into the pockets and bank accounts of the farmers, open season is declared by an army of canvassers and pedlars who offer in the most alluring manner their various commodities from household requirements to oil and mining stocks. The whole gamut of specialties comes within the scope of these pedlars, including stationery, machinery and the latest domestic inventions. It stands to reason that this form of merchandising is an expensive one, for high-power salesmen are well paid salesmen, and moreover their expense accounts run into very substantial amounts, so that while all other equations may be bona fide, the average sales made by pedlars must yield heavy excesses over the value given. It is a fair statement to make that the stores of any community are in a position to give better value than the pedlars, moreover, there is this tremendous advantage—that the local merchant must stand behind the merchandise he sells, and the honesty of his business methods for on that foundation and that alone can be expected to remain in business. But the pedlars are bound by no such ethics. They move from point to point, with no expectation of returning. Their business axiom is to make a killing and then move on to distant green pastures. Unfortunately a good many people succumb to the wily, smooth-tongued door-to-door salesman and are temporarily carried off their feet by the high-power salesman's line of talk. Not only are a good many people getting stung, but they do an injury to their own well established business houses, which by virtue of honest, continuous service, are entitled to those extra flushes of business which come along at certain periods of the year.

OUR PUBLIC MEN

It is surprising how few of the public men in Canada have become rich in political life. The Ottawa Journal says that in glancing over the list of prime ministers since Confederation, no wealthy man appears: MacDonald, poor; Alexander McKenzie, poor; J.C. Abbot, moderately well off; Sir John Thompson, poor; McKenzie Bowell, not well off; Sir Charles Tupper, comparatively poor; Laurier, poor; Sir Robert Borden, rather better off than his predecessors; Meighen, poor; McKenzie King, not richer than Meighen. Not only have these men not been rich while in office, but those who have died, have left little estate. They have been honest men, and show the high standard of Canadian public men. Hardly ever since Confederation has scandal touched the personal honor of any public man in regard to money or personal gain. They have been ambitious, it is true, but never greedy or unscrupulous.

AGRICULTURAL TEXT BOOK

A new text book on agriculture is now being distributed by the school book branch of the Department of Education for use in the high schools of the province. It bears the title "Canadian Agriculture for High Schools" and is authorized as a text for the higher grades, the elementary grades already having a text on the subject. The authors are a number of the members of the faculty of agriculture at the University of Alberta, and the book is particularly concerned with and adapted to the conditions of Alberta farm life and work. Alberta is the first province in the Dominion to have an advanced text of this description.

WE OFTEN WANT TO

A precedent has been established by Calgary parents who are suing their son for injuries sustained in a motor car accident in which the son was the driver and owner of the car. They kept telling him from the back seat that he was going too fast. But he pursued his wicked way, eventually landing in a head-on collision in Sinclair Canyon. The mother hit the roof of the car and sustained serious injuries. To show that parental wrath is nothing to monkey with, Mrs. Lockett has sued her son for \$5,000 injuries and the father is suing for the wife's hospital bill. That is one way of teaching the child.

A fool is known by six things: Anger without cause. Speech without profit. Change without progress. Inquiry without object. Putting trust in a stranger and mistaking foes for friends.

SO THEY SAY

To keep young, increase your activities.—Dr. Harold Wiley.

"From now on, what I do is going to be done by Gene Tunney, not by the heavyweight champions"—Gene Tunney.
After a few years of marriage, a man can look right at a woman with out seeing her—and a woman can see through a man without looking at him.—Helen Howard.

CRIME AND THE HOME

Since the war, there has been a startling increase in crimes of violence. The four years of war, when a spirit of violence was uppermost in the mind of the world, have and the last. A mother who punished her small son when he attempted to rob the sugar bowl, said: "If the fingers of a baby boy are slapped when he steals lumps of sugar, he won't be so apt later in life to plunder any treasury." The hand that rocks the cradle is the strongest touch to prevent the deed of violence.

Have you ever thought of windows. How they are the eyes of a house, seeing much but revealing little, while the silly mouth—the door—must open and gabble to every knock?

OUR EDUCATIONAL SYSTEM

Toronto Saturday Night contributes the following on Alberta: "Great changes in Alberta's educational system are said to be coming next year. The farmer members of the legislature have been insisting that the course of studies in High School be given a practical turn. So this may be the kind of examination paper that will be set for June 1929:

Literature Grade X

1. "A horse, a horse, My Kingdom for a horse."
 - (a) From which Shakespeare's plays is this?
 - (b) Why were horses so expensive at that time?
 - (c) Why did the speaker not call for a tractor?
 - (d) From your knowledge of Macbeth, which of the following breeds of horses would he be likely to prefer: Berkshire, Leghorn, Holstein, Shetland, Alredide, Angora or Rumeley?
2. Quote ten lines of Romeo's speech beginning:

"—go not my horse one better
I must become a borrower of the night for a dark hour or twain."

 - (a) Why did Richard expect to become a borrower of the night?
 - (b) Was his credit so bad that he could not borrow from his bank in daytime? (Answer yes, or no).
 - (c) Show how Richard was a victim of the rural credit system of his time.

A VOICE IS STILL

The following poem written by Lieut. Wilkinson during the war, has been revived for November 11th. His death in action added another name to the list of promising poets who were lost to English literature through the war:

Sadly appropriate are the following lines from his poem, "Death" included in his volume of "Sunrise Dreams," published at the end of last year:

"That leap in the dark." What follows the leap?
The darkness grows suddenly bright,
Or, for ever the soft, solemn silence of sleep?
The end—or the birth of new light?
Whichever it be, for this world 'tis good-bye
To brave dreams and hopes barely grown;
Yet 'tis little we'll miss them, so proudly we'll lie
In that wonderful soil, hero-sown.
The fight shall roll o'er us—a broad crimson tide—
Feet stamp; shells wail; bullets hiss—
And England be greater, because we have died;
What end could be finer than this?

WHY NOT GO DUTCH?

In an address to members of the "Useful Women Association," at their offices in Dover street, W., London, the Comtesse Eileen de Arnail said that, although young men and women were today considered equal, a boy would often take a girl out and pay when he could not afford to do so. "He will often go without his lunch in order to pay for her amusement," she said, "though the girl may be earning as much as or even more than he is. I do not see why these young men and women should not pay for themselves, or else let the boy pay one night and the girl the next."

TURN IT OFF

A section of inner tube about three inches wide, slipped round an alarm clock, will muffle the alarm, so that while wakening any person in the same room, it will not rouse the entire household. The next question is, whose room will the alarm clock go into?

NO NOVELTY TO HIM

A doctor was examining a man who had come to him for the first time. Satisfied at last, the doctor looked at him gravely. "You are in bad shape," he said. "What you need is a sea voyage. Can you manage it?" "Oh, yes," replied the patient. "I'm second mate on the Anna Marie just in from Hong Kong."

NEXT!!!

An advertisement that appeared in the columns of an Indian paper must be among the best examples of Babu English. Here it is, word for word: "Mahomedman, hair cutter and clean shaver. Gentlemen's throats cut with very sharp razors, with great care and skill. No irritating feeling afterward. A trial solicited."

ITEMS OF INTEREST

Doug. Fairbanks is said to owe the U. S. government the sum of \$1,090,000 in unpaid federal income taxes.

The Royal Bank of Canada will erect an office building in Vancouver to cost in the neighborhood of \$1,500,000.

Bagpipe music was broadcast by a Toronto station the other night and 7000 people in Ontario took their seats to pieces in an endeavor to locate the trouble.

An American diplomat in China states that the recent civil war differed in many respects from other wars. It did. For instance, none of the opposing generals claimed that God was on his side.—Winnipeg Tribune.

A worthy missionary in India had the hymn "Rock of Ages" translated into Hindustani. On retranslation into English by a student, the first two lines bore this inspiring and illuminating aspect: "Very old stone split for my benefit, Let we absent myself under your fragments."

In a boys' Sunday school class in town, the boys were discussing faith, hope and charity. One boy was of the opinion that love included both faith and hope. There was some discussion which was capped by one youth remarking sadly: "Yes, but you can love without much hope."

A high power Cadillac sedan, especially equipped with flanged steel tired wheels, has been turned out of the Angus Shops of the Canadian Pacific Railway at Montreal for the use of the engineering department of the railway. Capable of travelling on the rails at as great a speed as upon the road, the machine will be used for inspection trips on C.P.R. lines through out the country.

The last issue of the Toronto Saturday Night contains fine publicity of Blackie district when it gave a very good picture of officials of the Alberta Pacific Grain Co. visiting their big wheat farm north of Blackie. The wheat field in the background of the picture has been threshed and yielded an average of more than 40 bushels per acre. In the picture were John Thordarson, western manager, Cecil Lamont, Carl Christianson who farms several thousand acres in Alberta and James Stewart, president of the Company.

A preacher once said Editors dare not tell the truth. If they did, they could not live and newspapers would be a failure. The editor replied, "You are right." The minister who will at all times tell the truth about his members, dead or alive, will never occupy the same pulpit more than one Sunday, and will have to leave town in a hurry." The press and pulpit go hand in hand with whitewash brush and kind words magnifying little virtues into big ones. The pulpit and press are a saint making partnership. The minister went away thoughtful, while the editor turned to his work, writing of the inconceivable beauty of the bride, who in reality was very homely.

ARROWWOOD NEWS

The E. C. Bowman family have gone to California to spend the winter. They went by automobile.

The Bow Valley Church in Arrowwood have purchased a new grand piano for their church here.

There is a considerable interest being shown in the sale of school lands to be held by the government soon.

The seventh grain elevator opened up here this week. The agent, Fred Miller, took in over ten thousand bushels of wheat the first day. Mr. Miller operated one of the pool elevators here last year and was one of the men to top the list in Alberta for handling the largest quantity of wheat.

Another section of wheat land was sold in this district recently when John Arnold, 12 miles north east of Vulcan sold his well improved farm. Mr. and Mrs. Arnold expect to return to their home in Calgary where they have lived alternatively with their farm home during the past several years. The sale was made by Lyle Brothers, Real Estate, Arrowwood.

IN A LIGHTER VEIN

The story is told of a very indifferent husband and father who died. Before the burial friends and neighbors gathered to take a last look at him. Coming downstairs each visitor offered widow and children words of sympathy highly praising the dead man's virtues. At last the poor woman could stand it no longer, and turning to her eldest daughter she said: "Clara, go upstairs and see if it really is your father."

BUCK & HOWSON, VULCAN

Announcing Opening

— OF THE —

Vulcan Barber Shop

(Carson Block)

The equipment, which is new and of the latest approved design, with all sanitary features, includes baths for ladies and gentlemen. The tonsorial service will be provided by a barber of long and wide experience. General patronage is solicited. Ladies and children will be given every attention

ROBERT RAINE

A Swedish engineer has invented an "electric siren" which will prevent submarines, when below water, from colliding and also warn surface craft to make way when a submarine wishes to come up for light and air.

An attempt will be made to supply natural gas from the Turner Valley field. The price to be charged will be about 75c per thousand cubic feet for domestic purposes and 35c for industrial purposes.

Vulcan Herald

VOL. 1. VULCAN, NOVEMBER 9 No 36

Vulcan Herald

Published in the interests of the People of Vulcan and the Farms and the Farmers of the District.
R. J. MONDS, Editor.

EDITORIAL

In number of men and nations involved; in cost, both in money and in lives lost; the WORLD WAR was undoubtedly the greatest in all history. But it is not the size, the cost, nor the greatness of the war that we celebrate on Armistice Day, but the fact that ending as it did, civilization was permitted to endure.

THE KNOCKER

A man who knocks his home town is a mortgage on which the rest of the community pays interest.

HYMN OF HATE

Dig a grave
For Abner Cox;
Where'er he goes
He wears white sox.

THANKSGIVING DAY

Well, we've got quite a lot of things to be thankful for this year, but chief among them is the fact that we are living in the best little city and farming community in the best Province in Canada, with enough good customers to keep our business off the rocks.

COW-ARDLY

My cow is very modest, since the day that she was born.

She's tended to her business and never blown her horn.

AN ESTIMATE

Somebody estimates that 87 per cent of the statues erected to the memory of men who were once called cranks.

We still know a few people who still pronounce it Ar-MIS-tice.

Treat men like men if you'd have them be men.

A DEFINITION

A hubard squash is nothing but a gourd that's had an operation and got into society.

THE TRACTOR

A McCormick-Deering Tractor not only does farm work more easily, but it puts the farm on a new Money-Making basis, and it often can bring in extra dollars by doing work for the neighbors or the road commissioners.

A FEED GRINDER PAYS

Experienced stock feeders and dairymen find it pays to grind their own feeds. That's why thousands of them use Vessot Feed Grinders.

R. J. MONDS

VULCAN

Good Equipment Makes a

Good Farmer Better.

RED CROSS CREED

It is the proud boast of the Red Cross Society that it is a purely voluntary organization, without any political, racial, or religious complexion whatsoever. Its members are men, women and children of every village, city and countryside who have one creed to which they give their loyal allegiance. This is the world-wide belief that wherever suffering and ill health be found, from any cause whatsoever, there is the bounden duty of Red Cross collectively or individually, to alleviate it. The simplicity of this faith is not always apparent in a world that hurries on, too preased with its own affairs to see the suffering child by the wayside, robbed of his birthright of health and strength. The world all too frequently "passes by on the other side," and leaves the sufferer to his misery.

Not so the Red Cross Society. Theirs is the order of the kind deed, the pledge of the friendly hand. Not enough to stop and see, the Red Cross of to-day, like the Good Samaritan of old, has work to do where suffering is concerned. The ass in the immortal tale of the way to Jericho has its counterpart today in the motor ambulance that smoothly and carefully takes the patient en route to his destination.

The Inn of Scripture finds itself today represented by two beautiful houses of healing in Calgary and Edmonton, known as the Junior Red Cross Hospital. The twopenny paid by the friendly neighbor for the care of the sick Jew in the story translates itself in 1928 into memberships or donations to the Red Cross Society. Finally the central figure of the drama, the man whose name will go down the ages as a sweet savor of human compassion, the good Samaritan of Christ's parable, surely he and she are with us today in the great hearted public to whom the Red Cross addresses itself in its earnest appeal to be allowed to "carry on the divine work of healing "one of the least of these."

Remember Red Cross, 407 Civic Building, Edmonton, Alta.

RADIO FOR CANCER

British authorities on cancer consider that radium treatment is the chief advance of late years in the treatment of cancer. It has been proved of real value by Dr. Birkett of Manchester. He treated eighty cancer patients in 1926 and seventy-four in 1927. There is now no sign of the disease. These patients all had cancer of the mouth, tongue or throat. The very high cost of radium is an obstacle to general use, but the Medical Research Council of England have a supply which is lent from time to time to hospitals and doctors.

Just think of it: Pat Burns was charged with vagrancy at Hanna on October 24th, and because he was a "penniless vag" he paid a fine of \$5 and costs.

You've been married three times haven't you? Yes, but the first two were just sparring partners—this is the main bout.

ABOUT CANADA

Canada's Age Calendar
Canada is 61 years old, dated from Confederation.
Canada is 169 years old, dated from the British conquest of 1759.
Canada is 394 years old, dated from Cartier's first visit of 1534.
Quebec is 320 years old.
Montreal is 286 years old.
Halifax is 180 years old.
Toronto is 135 years old.
Victoria is 84 years old.
Vancouver is 48 years old.
Hudson's Bay Company is 258 years old.

Interesting Facts
Canada was the first of Britain's Colonies to receive self governing powers.

Canada was the first British colony to form a confederation.

Canada has had fourteen governor generals since Confederation.

Canada has 900 legislators.

Canada extends over an area equal from Athens to the North Pole.

Only one-fourth of Canada is occupied.

Canada's proportion of population is less than three to the square mile.

Canada is as large as 30 United Kingdoms.

Canada is as large as 18 Germanys.

Canada's area is nearly double Britain's India possessions.

Canada is larger than the United States and Alaska.

Canada is 18 times as large as France, 20 times as large as Spain.

Canada is 33 times as large as Italy.

Ontario is over four times as large as England.

Quebec is nearly three times as large as the United Kingdom.

Manitoba is as large as England and Scotland.

Canada's three far northern districts of MacKenzie, Ungava and Franklin are larger than China (proper).

British Columbia could hold 25 Switzerlands.

The Maritime Provinces are nearly as large as England and Wales.

The Yukon district is almost as large as France.

Great Assets

Canada's population, today, estimated at 9,500,000.

Practically all the valuable minerals are found in Canada.

Canada's mineral production of 1927 was valued at nearly 250 millions.

Canada ranks third among the world gold-producing countries.

Canada has the greatest nickel deposits in the world.

Canada has, it is estimated, 100,000 square miles of coal-bearing lands.

The Crow's Nest coal beds are estimated to hold enough coal which, if mined at the rate of four million tons a year, will last for 5,000 years.

Canada has, it is estimated, a million square miles of standing timber.

Canada has the largest white pine areas left on the continent.

Canada was the first colony of Empire to have a penny post.

Canada has 52,000 miles of telephone wires.

Canada began the twentieth century with the same number as the U.S. began the nineteenth.

Canada has 50 countries and nationalities in her population.

What Baldwin Has to Say of Canada

"Canada has an enormous future. The future is with you; do not be in too much of a hurry. Your country is a country for men of the north, virile races. Quality before quantity any day. Build up with the best. What does it matter if it is a hundred years, or two hundred years, or more, before your country is full? Keep the stock you have, and the men and women you have, and see to it that the coming generations are in no whit inferior to them. I have often thought that it is as dangerous a thing to the morals of a nation to get rich quickly as it is to an individual. Time is all on your side. Maintain the values; maintain the standards."—Rh. Hon. Stanley Baldwin, prime minister of Great Britain.

What the Prince Says of Canada

"Canada, as I see it today, is on the threshold of one of the most astonishing eras of expansion and development that the world has ever known. To watch her in this process, to watch her expansion and development, must be to those who know the Dominion personally a matter of absorbing interest. Canada, with all her natural resources, both human and material, still has room for some of the three commodities essential to national progress and prosperity. These are, I think, good brains, and good money and good work. She needs more of all these things, and if I have learned anything in my eight year's experiences of Canada, it is that she wants to be British."—H.R. H. Prince of Wales.

Even Bears are Nice in Canada

"Impersonation" is the latest charge to be brought against the black bear who frequently descends from the mountains on the north shore of Vancouver harbor and visit homes in North and West Vancouver and adjacent communities for a taste of domestic food. A Capilano woman for several days fed milk and honey to a big black bear which she took for the pet animal of Charles Anderson, employed at Second Canyon observation tower. The animal took the food as a home-bred should, but when she asked Mr. Anderson

Essex Super

Looks and Acts like a Costly Car because it's built like a costly car

The only Essex point in common with cars in its price field—is price. There is little in either appearance or performance to distinguish it from many a costlier car.

\$885 and up

All prices f. o. b. Windsor, taxes extra.
Buyers can pay for cars out of income at low cost available charge for interest, handling and insurance.

In size, it possesses the advantage of compactness without sacrifice of passenger quarters or riding comfort. It steers as easily as any car you have ever driven. Won't you examine and drive the Essex, whether as a prospective buyer or as one interested in knowing why it is the choice car in its price field as proved by sales?

JOHN WOLFE, DEALER
Hudson and Essex Automobiles, Telephone 11, Vulcan, Alberta

why his bear was allowed to roam at large, she learned that his captive had not been away from home. She is now very wary of bruin visitors who may come from the wilds, with meek mien to deceive credulous housewives.

Canada's Greatest Year

A year of unparalleled construction.

The best industrial employment year since 1920.

Motor tourists spent \$276,000,000 in Canada.

Newsprint production reached two billion tons.

Waterpower development nearly 5,000,000 h.p.

Canada lead the world in wheat and flour exports.

Life insurance companies' assets exceed a billion.

Canada has become a billion-dollar Dominion—plus.

Canada's gross agricultural wealth rose to eight billions.

Canada's gross agricultural wealth rose to eight billions.

Mining production, a new record, of nearly \$250,000,000.

Montreal again premier grain shipping port on continent.

Canada had a banner year in the automotive industry.

Canada had a favorable trade balance of over \$100,000,000.

Canada's wheat yield of nineteen bushels per acre led all countries.

Two hundred and sixty-five thousand h.p. of electrical energy developed this year, representing capital of \$25,000,000.

Canada's dollar stands higher than par in the world and has reached its highest purchasing power.

Canada's stock offerings reached new high volume of nearly \$100,000,000, and highest level reached in industrial stocks.

RADIO ORATORY

Just as the Talking Movies are likely to alter the value of many film stars, so the radio is creating a new standard in public speaking. The man who could sway the mob with his oratory, may not be able to put anything over on the radio. The radio political speaker ought to be a man who can draw up a chair and explain things to us. He is talking to people who are sitting quietly in their homes, and who want to listen to solid argument. If the speaker starts swinging his arms and raising his voice, and depending on emotion, it doesn't get over and people refuse to listen in. Lessons have been learned at broadcasting stations, about acceptable brands of oratory. One is not to orate. Another is to leave no weak spots in your reasoning. Your auditor is sitting thinking. A flourish and gesture can't cover a weak spot. Don't try to make them cry. Write out what you have to say. It is a very unusual person who can extemporize successfully in the uninspiring silence of the radio studio. And an inaccurate statement once gone is powerless to recall. The radio managers urge speakers to give their unseen audiences substance. A famous name may gather a crowd but it is the quiet simple reasoned message which keeps them tuned in. In future political campaigns the "radio" speakers will occupy a conspicuous place, and may be of entirely different type from the present popular platform orators.

Women are essential to life, but most certainly not to politics.—Benito Mussolini.

Westinghouse

How Many Years Behind is Your Set?

Battery Console \$167.00

Radio has advanced

IN Westinghouse Radio is embodied the latest improvements that Radio science has perfected. It means radio reception at its best, giving:

- True-to-life tone quality.
- Finely balanced selectivity.
- Full 6-tube power.
- Economy of operation.
- Year 'round reception.
- Clarity of distant stations.
- Single dial control.
- Westinghouse Cone Speaker.

This wonderful instrument is available at a price that represents more radio value than has ever been offered before. From \$82.50 to \$167.00.

Hear a Westinghouse demonstrated and judge its value for yourself

ENSIGN NEWS

Quite a few of the folks are taking pleasure in trying out the skating rink which will be opened up in a short time.

The E.W.L. meeting will be held at the home of Mrs. J. Ferguson November 13th at 2.30 p.m. All are invited to become members.

Mr. and Mrs. A. Ruark left on Monday evening, November 5th for Three Hills, where they expect to spend the winter months.

Ensign church services held every Sunday afternoon at 3 o'clock Preaching by the Rev. J. J. Farquhar. Sunday school at 2.30 by Mrs. A. Smith. You are all invited.

The Halloween Silver Tea which was held by the Ensign W.L. on October 31st in the pool room, proved to be a very successful afternoon, being well patronized as also the Madame's Fullabunk Fullahop and Fullabuff being kept busy revealing the future. Total amount collected was \$34.30.

Quite an enjoyable evening was spent by a few friends at the home of Miss V. McCannel, Saturday evening. Cards were played and quite a few musical selections were well enjoyed and prizes were given for the winners, the first being Mr. G. Marchall, second Mrs. E. Harris and the third Mrs. N. Dwigans. Lunch was served by the hostess.

KIRKCALDY NEWS

Miss McFall spent the week end at High River visiting with friends.

Mr. W. H. Baldwin spent the week end with friends.

Mr. and Mrs. Lellie Middleton motored to Calgary to visit with Miss Olive and Nellie Middleton.

Mr. Robbie left for Edmonton on Saturday where he will spend the winter.

Mr. and Mrs. J. M. Roebuck motored to Whittla on Saturday to spend the week end with Mrs. George Murray.

Sylvester Johnson had a narrow escape when his rifle went off and shot him through the hand, and we are pleased to see it is coming along O.K.

The bridge party given by Mrs. Seavers on Tuesday night was a very enjoyable evening. Ladies' first prize was won by Mrs. A. J. Maisey, gent by Mr. A. Roebuck, consolation prizes were won by Mrs. Roebuck and Mr. A. J. Maisey.

ITEMS OF INTEREST

L. H. Newman, Dominion cerealist at the Experimental Farm, now back from the West, states that 647 farmers are testing Reward wheat this year and a very much larger number are growing Garnet wheat. Both types are believed to be doing well, though a detailed report is not yet available.

Messrs. Hill and Bates, Lethbridge livestock dealers, have been advised by Walter and Dunbar of Chicago, that the 93 head of dry cows from the McEntyre ranch had sold readily at Chicago and had topped the market for that day for fat cows at 12 1/2 cents. Lethbridge shippers are pleased with this showing as it speaks well for Canadian cattle sold immediately on their arrival after a long rail haul.

The first of an order of 25 freight locomotives of the 5300 class, duplicating an order filled in 1926, has been delivered to the Canadian Pacific Railway at Montreal by the Montreal Locomotive Works. These are the first engines to be put into service in Canada of a boiler pressure as high as 250 lbs. per square inch. The balance of the order will be received at the rate of two or three a week.

With the largest staff in its history fully engaged in keeping up with the demand for the products of the plant the Alberta Clay Products Limited Medicine Hat, is surpassing the prediction of the early spring of a record season for the industry. Last year marked a high water mark, but this year will score far above it. In fact, so many orders have been received that current production cannot keep up with them, despite the recent addition of a 500 ton a month kiln and other additions will almost certainly have to be made. Fall and winter will be busy seasons as a result of the present boom in demand.

MONTHLY REPORT

October Standing Vulcan Public School Pupils

WANTED

POSITION—Young woman desires doing housework in Vulcan. Phone 96, Vulcan.

ITEMS OF INTEREST

On his visit to Texas recently, Col. Lindbergh shot an antelope from his aeroplane.

Radio is the latest proposed addition to the high school curriculum at Winnipeg.

Two hundred British boys are to be trained in Alberta farm schools next year. Twenty five will be placed in Claresholm.

The export of Christmas trees from New Brunswick to the Atlantic coast region of the United States, will be larger this year than last by 25 per cent., judging by present signs.

Shipments made by the Canadian Sugar Factories Limited at Raymond in August were as follows: 42 cars of sugar, 5 cars of molasses, 915 sacks of sugar, and 36 cases of icing sugar.

Silver black foxes for Japan, is Charlottetown's next! There will be ten pairs of picked beauties consigned to Karafuto for use as foundation stock for the Government. James Cahill, who accompanies the foxes, will instruct the Japanese authorities in fox ranching methods.

A wool pool in Alberta is now a possibility. Premier Brownlee met a number of representatives of the industry in this province the other day and the subject was opened up in a preliminary way. It will likely come before the executive council for further consideration in the near future, the Government being interested in all co-operative efforts by way of advising and encouraging.
